DETAILED ACTION

1. The rejections of claims 1-9, 11-14, 16, 18-30, and 32-43, discussed on paper of 3/8/05 are maintained.

2. The text of those sections of Title 35, U.S. Code 102, 103(a) not included in this action can be found in a prior Office action (mailed on 3/08/05).

Indicated allowability of claims 10, 15, 17, 31 as discussed on the same paper, paragraph 6 is also maintained.

Response to Arguments

3. Applicant's arguments filed 7/11/05 have been fully considered but they are not persuasive. Amended claim 1 is broad enough to read in a single bundle of membranes disposed within the housing around a central core or support column, e.g. " at least one membrane bundle", which limitation, together with limitations of claims 1-5. Regarding claim 6, patent 5,282,964 teach disposing modules on support columns, or separating bundles by baffles, which define separate columns (Fig.3). For at least these reasons the rejections are maintained.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
